EDUCATION

Vellore Institute of Technology Bhopal

Bachelor of Technology in Computer Science and Engineering
• GPA: 8.45/10

Bhopal, India
Sep. 2024 – Present

SKILLS

- **Technical Skills:** HTML, CSS, JavaScript, React.js, Next.js, Redux, Tailwind CSS, Git, Vite
- **Soft Skills:** Problem Solving, Adaptability, Effective Communication, Team Collaboration, Time Management

EXPERIENCE

Front End Software Intern

GNB Motors Private Limited

May 2026 – Present

Technologies used: React.js, JavaScript, CSS, Git

- Modernized the overview dashboard UI and implemented smooth filter transitions to enhance overall user experience.
- Integrated a global dynamic theme engine across all UI components and refactored date/time formatting to centralize and enforce consistent IST timezone display.
- Resolved critical UI bugs, including vehicle action dropdown clipping, scroll issues on the Vehicles page, and logic flaws within the profit range slider.
- Optimized production builds by updating Vite configuration files to automatically clean up and strip development-stage console logs.
- Expanded responsibilities by contributing to the frontend codebase of the dedicated driver application repository.

PROJECTS

IPL 2026 Stats & Schedule Dashboard | *JavaScript, React, Node.js, Web Scraping, Tailwind CSS*

- Designed and deployed a live IPL tracking platform delivering real-time match scores, detailed player comparisons, and live points tables.
- Built an efficient backend pipeline using custom scripts and REST APIs, minimizing data fetch latency to ensure highly accurate, real-time match updates.
- Integrated reusable React components and optimized UI elements for seamless, mobile-friendly cross-device usage during high-traffic live matches.
- Deployed Link: ipl2026t20.vercel.app

QLess | *HTML, CSS, JavaScript, TypeScript, React*

- Explored scalable SaaS architectures by developing an event management and automated ticketing platform tailored for university clubs.
- Experimented with Supabase and Node.js to structure the backend database, handle routing, and build out the underlying technical infrastructure.
- Developed an automated QR ticketing and scanning module, successfully managing seamless entry workflows for over 350 students during the Jhalak '26 campus event.
- Deployed Link: teamqless.vercel.app

Black Diamond Motors (Website Recreation) | *React, Next.js, TypeScript, Tailwind CSS, Framer Motion*

- Developed a fully responsive recreation of the corporate website using React, improving overall page load speed and component modularity.
- Engineered interactive UI animations and seamless page transitions utilizing Framer Motion to elevate the modernized frontend design.
- Redesigned the UI/UX structure to enhance navigation, accessibility, and visual consistency across desktop, tablet, and mobile devices.
- Deployed Link: blackdiamondmotors.vercel.app

ADDITIONAL INFORMATION

- **Languages:** English (Professional Working Proficiency), Hindi (Fluent)
- **Extracurricular Activities:** Core Member of the Gangabhumhi Club Tech Team at VIT Bhopal; actively managed technical event systems, website maintenance, and campus event coordination.
- **Hobbies:** Cricket (leveraging deep domain knowledge for data-driven player statistics projects), Chess
