EDUCATION

Bachelor of Technology (B.Tech): Computer Science and Engineering (Core)

VIT Bhopal University – Sehore, India

Expected Graduation: 2028

PROFESSIONAL SUMMARY

Computer Science undergraduate with strong interest in software engineering and frontend development. Focused on building scalable, user-centric applications and applying problem-solving skills in real-world engineering environments. Actively seeking opportunities to gain hands-on experience in professional software teams.

SKILLS

TECHNICAL / SOFT SKILLS

- Web Technologies: HTML5, CSS3, JavaScript (ES6+), React.js (Basics)
- Tools & Platforms: Git, GitHub, VS Code, Vercel (Deployment)
- Problem Solving
- Strong Work Ethic

PROGRAMMING / CORE SKILLS

- Programming Languages: C, C++, Java, Python, JavaScript
 - Design & UI: Tailwind CSS, Responsive Web Design, UI/UX Fundamentals
 - Teamwork
 - Adaptability
 - Attention to Detail
-

FEATURED PROJECTS

RouteX (FleetFlow) — Frontend & Product Design

Designed a multi-role logistics dashboard featuring an Owner Admin Panel, Driver Mobile App, and Supplier Portal. Developed real-time KPI cards for fleet monitoring including Active Trucks,

Revenue (MTD), and Critical Alerts. Created a Universal Document Vault with color-coded status badges (Expired/Expiring) for compliance tracking. Implemented a mobile-first Driver interface for trip execution and digital expense (Bhatta) logging.

Black Diamond Motors — Official Website Upgrade (View)

Upgraded and restructured the official website with improved UI, responsiveness, and modular frontend architecture. Managed deployment on Vercel for reliable hosting and high availability.

Gangabhumi Club — Official Website (View)

Designed and developed the official club website as part of the technical team at VIT Bhopal University. Collaborated with team members to deliver responsive layouts and production-ready features.

VIT Buddy Bot & Faculty–Mess Menu Bot (View)

Built chatbot-based systems with separate frontend and backend repositories providing students quick access to academic and mess-related information.

EXPERIENCE

Core Member – Tech Team, 11/2024 – Current

Gangabhumi Club, VIT Bhopal University – Sehore, India

- Contributed to development and maintenance of club web platforms.
- Collaborated with team members to deliver production-ready features and user-focused functionality.
- Developed the 'Jhalak' event entry system to handle real-time student check-ins and logistics verification.
